PORTLAND FAUX NEON

Your bespoke neon-effect LED sign.

- Developed as an alternate to Neon Signs
- Neon-effect created using super bright 12V LEDs
- Acrylic moulded letters with half-round profile, mimics neon glass
- Any typeface in joined or individual letters up to 1400mm x 1000mm
- Available in 17 colours Portland FAUX NEON sympathetically reflects the golden age of Neon signage
 - Manufactured to your bespoke design
 - Delivered to you in **4 easy steps**

How to order your Portland FAUX NEON

1

Stage 1: Artwork

Please send JPEG, EPS or AI files outlining your design
Any letter style up to 1400mm x 1000mm
Please advise colour choices from our Perspex colour chart below

2

Stage 2: Application

Let us know if this is for an interior or exterior application and what substrate you are fixing to for example brick or plaster walls?

Locator fixings, M3 pins or VHB tape can be supplied with your order or alternatively we can prefix your sign to a folded ACM tray or flat panel

3

Stage 3: Quotation

We will return a quotation with a final production drawing for your approval

4

Stage 4: Delivery

Your sign will be delivered with fixing instructions and templates 3-4 weeks from receipt of your order
